

Sealoflex Prima Quartz

The Sealoflex Prima System is designed primarily for use within the commercial refurbishment and new build sectors, the system offers specifiers and contractors new solutions to previously frustrating and difficult problems.

PRODUCT DATA

Container size	25 kg
Form	Solid / granular
Application rate	Approx. 3 - 5 kg per m ²
Colours	Black / Light Grey granule mix Natural Sand granule mix

DESCRIPTION

Sealoflex Prima Quartz comprises kiln dried silica granules of diameter 0.4 to 0.8 mm, supplied in a 25 kg bag.

INTENDED USE

Sealoflex Prima Quartz is used to create a hard wearing anti-skid surface, or alkaline protection layer above the primary waterproof coating.

COLOUR

Sealoflex Prima Natural Quartz is a natural sand colour granule mix.
Sealoflex Prima Coloured Quartz is a black and light grey granule mix.

PRODUCT TESTING

BMI Sealoflex Prima has been independently site and laboratory tested by the British Board of Agrément and awarded BBA certificate number 13/5028.

APPLICATION

The Sealoflex Prima Quartz sand is scattered by hand into the Sealoflex Prima Walkway Compound once the wet resin has been mixed and applied at the correct coverage rates. Ample quantities of the quartz sand should be applied to ensure full embedment of the granules. Once the granules and walkway compound has cured, the excess granules can be swept off, collected and re-used.

Personal Protective Equipment (PPE) should be worn.

USAGE RATE

Sealoflex Prima Quartz granules are scattered by hand at an approximate coverage rate of 3 to 5 kg/m².

STORAGE

Product should be stored in a dry and cool environment.

DISPOSAL

Solid EWC 19 12 09
